

PatentExaminer

Questel•Orbit is pleased to announce that PatentExaminer is now available for offline viewing and analysis of full-text patents and facsimile copies. PatentExaminer allows for side-by-side viewing of full-text records and PDF copies with your web browser.

Features:

- ✚ User-controlled term highlighting
- ✚ Text mapping, sorting, and filtering
- ✚ Document rating and annotating capabilities

Exporting Results from Questel•Orbit to PatentExaminer

Results from a PlusPat online search as well as PlusPat SDI results can be easily exported into PatentExaminer. An email will be sent to you when the results are available in PatentExaminer.

From a PlusPat Search

After an online search in PlusPat, the new EXPORT feature is used to export the results, as well as the corresponding full-text records and facsimile documents, where available, into PatentExaminer.

From a PlusPat SDI

Results from a PlusPat SDI can automatically be exported into PatentExaminer. The PlusPat results as well as the corresponding full-text records and facsimile documents will be imported into PatentExaminer.

EXPORT Assist Mode:

A permanent email address must be stored on your Questel•Orbit Logon. To permanently store an email address in Questel•Orbit, use the SET EMAIL command.

Enter EXPORT at the command line and follow the menu instructions, selecting option 10 at the Page Style prompt.

Example of Using the EXPORT Feature to Export PlusPat Results into PatentExaminer

After performing an online search in PlusPat, the EXPORT command is used to export the PlusPat records and corresponding full-text and facsimile patents into PatentExaminer.

Example:

? **EXPORT**

Enter the search statement number to be used for print :
(Pressing "Enter" will default to the last SS with results)

Enter range of records (e.g. 1-10 20 ...)
(Max 5000 records by post/mail and 1000 records by e-mail)
(Pressing "Enter" will default to ALL the records in the set)

Note: If you enter or default to more than the maximum allowable number of records, the system will cancel the print command only after you have completed all the steps.

Enter Delivery type, postal or email :
(Pressing 'Enter' will default to postal/mail delivery)

? **EMAIL**

Enter E-Mail address(es) :
(Up to 6 addresses, each on a separate line when prompted)
(Pressing "Enter" defaults ONLY to permanent email address)

? client@company.com

Enter Delivery format (TXT or RTF or PDF or XML) :
(RTF or PDF or XML is required for images)
(Pressing 'Enter' will default to TXT delivery format)

Please note: When exporting to PatentExaminer, it is not necessary to make specify the delivery format. Simply press "enter".

Enter only Format/Field(s) with LEGAL/FULLCLMS/CITE display options, e.g.: MAX LEGAL or ABST FULLCLMS.
(Pressing 'Enter' will default to MAX format)

Please note: When exporting to PatentExaminer, it is not necessary to make specify the display options. Simply press "enter".

Print images : Yes / No

? Y

Enter a Title, to identify print and display with results :
(3 lines max, up to 60 characters per line)
(Pressing 'Enter' will default to no title)

? **Title**

Next title line (3 lines maximum) :
Pressing "Enter" will stop title prompting)

Enter a Number corresponding to following Page Styles :

- 1 - Fields Tags and without Page Breaks (Default Page Style)
- 2 - Fields Tags and with Page Breaks

- 10 - PatentExaminer (PlusPat only)**

? 10

EXPORT Name :
(up to 30 characters, beginning with a letter, no spaces nor special characters)

? **Name**

Directory :
(Maximum length 20 characters, no spaces)
(Pressing 'Enter' will default to PatentExaminer inbox)

? **DirectoryName**

PDS Type Please enter PDF, PDFF or PDFD
(Pressing 'Enter' will default to PDFF)

Please note the following:
PDF = Complete facsimile patent
PDFF = Front-page only
PDFD = Drawing mosaics only

? **PDF**

Expert Mode:

If you do not wish to use the EXPORT menu, you can directly enter a command to export the results to PatentExaminer.

A permanent email address must be stored on your Questel•Orbit Logon. To permanently store an email address in Questel•Orbit, use the SET EMAIL command

To combine EXPORT parameters separate them with ; (semi-colon). The order is as follows:

```
EXPORT N-N PDF PSET 10 ExportFileName;TI Line1!Line2!Line3;EMAIL client@company.com;DIR DirectoryName
```

If you do not want to use an option, simply omit it from the parameter syntax.

To specify a PDF First page facsimile only in the EXPORT:

```
EXPORT <N-N> PDFF PSET 10 EXPORTFILENAME
```

To specify a PDF Drawings only (if available):

```
EXPORT <N-N> PDFD PSET 10 EXPORTFILENAME
```

To give the EXPORT a title:

```
EXPORT <N-N> PDF EXPORTFILENAME;TI <TITLE>
```

To specify a specific directory name:

```
EXPORT <N-N> PDF PSET 10 EXPORTFILENAME;DIR <DIRECTORY NAME>
```

Emailing to an address that is not the stored email address:

```
EXPORT <N-N> PDF PSET 10 EXPORTFILENAME;EMAIL client@company
```

Exporting PlusPat SDIs:

Results from a PlusPat SDI can automatically be exported into PatentExaminer. To do this, use Page Style 10 in the Page Style menu when using the SDI setup menu. The PlusPat results as well as the corresponding full-text records and facsimile documents will be imported into PatentExaminer.
