*: incoming and outgoing days not included

Discounts on Standard Tariff only

Annual Search Turnover	Discount
> 25.000 €	- 5 %
> 50.000 €	- 10 %
> 100.000 €	- 15 %
> 150.000 €	- 20 %
> 200.000 €	- 25 %

Please bear in mind that we reserve the right of not applying discounts on published prices if invoices are not paid according to our general conditions.

General information on Searches

Remarks

Searches in class 05 always include International Non-proprietary Names (INN).

Minimum invoice amount for searches is € 40

Supplements (classes, turnaround times) are cumulative.

Example of price calculation

Price of an availability search (analysed with copies of the relevant Trademarks) in 2 classes and urgent turnaround time.

CTM & France & Germany & International € (100 + 100 + 150 + 0)	= € 350.00	
For the 2 nd class, 20 % supplement	+ € 70	= € 420.00
For urgent turnaround time, 20 % supplement	+ € 84	= € 504.00

General information on Watches

Discounts

Discounts on our published tariffs are granted on every invoice according to the total number of Trademarks watched.

Number of marks	Discount
> 50	- 5 %
> 100	- 10 %
> 150	- 15 %
> 200	- 20 %

Renewal

Unless opposite instruction of the client, received at the latest one month prior the date of renewal, the watching services will be renewed for a supplementary period of 12 months

Invoicing

Watches are invoiced for 12 months with a renewal date at the end of this time frame.

Please bear in mind that we reserve the right of not applying (or reducing) discounts if our invoices are not paid according to our general conditions or if the turnover is significantly reduced.

Abandoning instructions

Instructions to abandon received less than 3 months following the instruction or renewal date will lead to a credit note of 50% of the invoiced amount.

Instructions to abandon received after this date will not be refunded.

Remarks

For each report, Questel.Edital can provide, on the left, full details of the Trademark being watched and on the right, full details of the Trademark selected by our analyst, which will help you in comparing marks.

In order to do so, Questel.Edital requires the application or registration number and the register of the Trademark to be watched.

Reports are available for download from our Web Site. Reports can also be sent by e-mail or regular mail.

Examples of price calculation (electronic delivery)

- Worldwide Watch for 4 classes :
 - 1 to 3 classes € 168
 - 4th class (+20%) € 33,6
 - Total € 201,6**
- Watch in France + International + CTM + United States (in 3 classes) :
 - 1 country outside the EU € 63 (United States)
 - 1 additional country € 11 (France & International)
 - 1 additional country € 11 Community Trademarks)
 - Total € 85**

Quality of Searches and Watches

Registers available on adital.com

The Questel-Edital software is of high quality. It has been developed using very fine algorithms, and then thoroughly tested.

One of these tests was as follows:

1. We listed all the decisions (more than 3000) rendered by an opposition division or an appeal division in Alicante and released on the OHIM website before 01/01/04, and in which the conflicting marks were deemed phonetically identical or similar.
2. For each of those 3.000 opposing marks identified above we executed a search amongst marks to which we « added » the 3.000 opposed marks which Alicante considered phonetically identical or similar to the opposing marks.

100 % of the identical or similar « opposed » marks were retrieved on the computer list produced by our Questel.Edital software. However, the HZ/HAZET decision was only retrieved thanks to our analyst's insight.

Other registers

Our worldwide network of specialised partners, who have the same quality standards, allows us to offer searches in other countries as well as worldwide watches.

For more detailed information, please contact our Customer Service Department.

The client covers the trainer's out-of-pocket expenses. We recommend a training of two days minimum.	

Portfolio Management Systems

WorldSuite® (Management System for Trademarks, Patents, Designs and Domain Names)

This portfolio management software reflects our IP know-how acquired for over twenty years. We use the latest computer technologies to ensure top product reliability. This software is exclusively developed by an internal team comprised of people specialised in IP computer systems.

The latest version of the software is currently on its **6th generation**. It has been developed in cooperation with renowned worldwide corporations, some of which are major players in the IP law field, and others that are among the leading companies in the industrial sector.

WorldSuite® is an integrated system which not only allows you to manage your **Trademarks, patents, designs and domain names**, but also facilitates the management of the whole data flow in your company or office.

Technical Features

- Multi-site operation through client-server architecture Microsoft® SQL 2000.
- Installation on Windows® terminal server, and Supports Citrix® environment.
- Database access from more than one location.
- Internet read only access through an Internet browser.
- Easy installation through .msi (Microsoft Installer®) file, which ensures installation consistency

Languages

- French and English are standard.
- The possibility exists to add other languages if necessary.

IP Laws and Due Dates Management

- Over 300 territories and agreements (WIPO, ARIPO, PCT, EPC, EAPC,...) including past and present legislations.
- All official actions are included in WorldSuite®. They allow for specific and automatic due dates configuration.
- The user can also create his actions which will automatically appear in the overall agenda.
- The agenda can be displayed and printed based on various criteria (responsible person, dates, laws,...).
- WorldSuite® country laws are maintained by an extensive network of over 200 reputable local agents. Thanks to its country laws module, WorldSuite® includes a law checker.

Integrated System

This is among the major advantages of WorldSuite® as it allows the user, with a simple click on the mouse, to display on the screen all data and documents related to a specific right, matter, etc. The time for complicated searching through your servers and folders is over!

Many links exist among modules:

- Between different rights.
- Between rights and matters.
- Between different matters.
- Between rights and address books (duplicate, copy to,...).
- Between rights and legal addresses (owners, inventors,..).
- Between matters and address books (duplicate, copy to,...).
- Between different address books (Headquarter, subsidiary,...).
- Between different legal addresses (more than one inventor or applicant).

Portfolio Management Systems

WorldSuite® (Management System for Trademarks, Patents, Designs and Domain Names)

Access to generated documents:

- The documents generated in WorldSuite® are easily accessible from the "Relations" tab of the matter or right they are linked to.
- All documents generated for a recipient are referenced in the address book.

Access to attached documents:

- It is possible to attach documents (scanning of incoming documents, copy of official documents, images, etc.) for any records in any modules.

Security

- In-depth configuration of user profiles and rights, individually or per group: access level (read, print, modification, creation, deletion) per module and per field, default value, export permission, maximum number of records allowed in results of queries, etc.
- Two types of connections are possible: either "autonomous mode" (a user name and password are requested to open the program) or "Trusted Authentication mode" (the Windows® user name are automatically used to open the program).
- In-depth configuration of modifications that are logged in the history table.

Data Access

- Query any fields directly from within modules ("Query by Form").
- Highly developed multi-module querying capability, which allows selecting the information displayed in the results, and with the possibility to export the results in various formats.
- Save and share (also over the Internet) your most frequently used queries.

Data-entry Wizards

Many tools preventing repetitive data-entry tasks and validations:

- Record-duplication wizard.
- IP Rights-splitter wizard based on PCT, EPC, EAPC records, or from International Trademark, etc.
- Mass Filing of IP rights
- Find & Replace wizard
- Default and recommended agents per jurisdiction / legislation.
- Patent and Trademark rights data-entry assistant.
- Document generation provides for the automatic update of fields.
- Library of standard goods and services description from the Nice 8th edition; including the possibility for the user to create his own goods and services description.

Documents Creation

- Documents are generated straight into MS® Word based on MS® Word templates for easy customisation letters. Over 200 ready to use report templates, among them are numerous official forms.
- Document generation provides for the automatic update of fields.
- Export and print grids in columnar format.
- Crystal Reports® templates allowing for additional export options. Dozens of reports will be available as they are or as models to create your own reports.

Portfolio Management Systems

WorldSuite® (Management System for Trademarks, Patents, Designs and Domain Names)

Flexibility: Customizable Software

- User-changeable captions and tips for any field in the system.
- Almost all value lists are customisable (matter types, address types, status ...) using the field manager.
- Advanced user-management, with individual profile settings & permissions. Security is adaptable by user or group of users for all modules, fields, default values, etc.
- Create proper rules for generating automatic user actions reflecting your own method of working.
- Document generation (Microsoft® Word) provides for the automatic update of fields.
- Define your own Goods & Services descriptions.
- 40 user fields in each module for specific data.
- Fields not used can be hidden.
- Specific configuration of history table allows for personalized way to log modifications.
- Unique identification number in all modules. The default numbers are customisable per module in order to have different ranges of numbers among each of the modules. In addition to clients' and agents' references, WorldSuite® provides for more personalised identification data such as "short name" and even "alternate number" fields.

Finance

- Bookkeeping module manages various costs and financial details, with creation of accounting documents (invoices, credit notes,...).
- Agent's fees management

Miscellaneous

- 3 different in-charge users per record in any of the modules providing the possibility to specify various user's levels such as data-entry person, responsible person, and the department as a whole.
- Goods & Services as filed and registered in Multi-languages is possible
- Bar code module.
- Link module to Microsoft Outlook®
- Connection module to the Benelux Trademark office.

Besides these many functionalities, WorldSuite® is simple to use, user-friendly and flexible. No doubt that WorldSuite® will long remain the lead product used by IP professionals.

Portfolio Management Systems

WorldSuite® (Management System for Trademarks, Patents, Designs and Domain Names)

Training

- A training session in our offices or in your premises will be needed. We recommend four days training for regular users, and an additional day for advanced users (administrators).

Maintenance

Maintenance includes:

- Quarterly law updates
- All WorldSuite® program upgrades.
- Technical support by phone, fax, and e-mails.

Data integration

- Our conversion department converts your data from WorldMark® Plus or from your own software; or even from Microsoft Excel®, Microsoft® Access, SQL Server, text files ("comma delimited" and other types), etc.
- We also can add data pertaining to the data you provided us originally, or create the data from scratch according to official registers which we own.

Tariffs

WorldSuite® tariffs vary according to the following configurations:

- The choice of the base module (Trademarks and domain names module and/or patents and designs module).
- Optional module for the creation of additional databases.
- Internet (Web) access module.
- Optional bar code module.
- Optional link module for use with Microsoft Outlook®.
- Optional connection module to Benelux Trademark office.
- Number of sites.
- Number of users.
- Number of records.
- Maintenance, which is calculated as a percentage of the total price.
- Number of training days.
- Conversion of your data.

Please contact us if you require additional information or detailed estimates. We also provide personalised demonstrations.

General terms and conditions

1. Our general terms and conditions concerning the products listed hereunder are exclusively applicable in the relations with the Client, so that all other general sales or service conditions, including those of the Client, are excluded.
2. The aim of our services is the computer-aided retrieval, by Portfolio Management Systems, of documentation, searches, watches and information related to Industrial Property (IP). Our services are geared towards IP specialists and to the IP departments of companies. Unless otherwise expressly stated, we do not give legal advice.
3. Even though the greatest care is taken in the handling of our databases, emanating from official or private sources of the best quality, and in the translation of this data, our liability is strictly limited to making all reasonable efforts. We therefore do not guarantee the exactitude or exhaustive character of the data used or of their applications. The Client accepts and expressly recognizes that Questel and its subsidiary (hereunder Questel.Edital) cannot be held liable of any consequence resulting from errors or omissions in the databases or in the translations we use or have made or in our search or watch reports (hereunder the reports).
4. The Client is solely responsible for the confidentiality and the usage of his username and password, of the choice, the precision and the scope of his order to Questel.Edital and of the uses he makes of our reports or our data, whether made available online or not.
5. Questel.Edital is the sole owner of the copyright, including related rights, of its Portfolio Management Systems, its databases, its reports or generally of any publication, whether online or not, transmitted to the Client. These data or reports are confidential; they are for the sole use of the Client or of his representative. The Client therefore will only use, copy or divulge them for his/her own professional needs or those of his/her representative.
6. Our turnaround times are calculated in working days, starting from the day following receipt of the Client's order. We accept no responsibility for delays following 'force majeure', a strike or a similar cause, a computer breakdown, or failures of the postal services, private or public, or resulting from unpaid invoices.
7. Should Questel.Edital's liability be established, its liability is in theory limited to the price invoiced by Questel.Edital for the service rendered to the Client. The Client accepts and recognises that Questel.Edital will be free of all liability if the claim is not notified within 3 months at the latest of the execution of the service.
8. Our services will be invoiced according to the prices published on our website. The Customer is to notify Questel.Edital immediately, by registered letter or fax, any change of company name, address or user. Discounts are granted as far as the Customer filled all his obligations, namely those relative to the total payment of invoices.
Questel.Edital reserves the right to modify his services and/or pricing policy.
9. Our invoices are payable upon receipt, in the currency and according to the conditions indicated on the invoice. Any within 30 days unpaid invoice will suspend the execution of any new service and a monthly interest of 0,9% will be applied without notice. Further, within one month of a registered letter remaining unanswered, the invoice will be increased with an indemnity rate of ten per cent with a minimum of 250 €. The banking charges relative to payments, as well as the expenses engendered by delays in payments of the Customer, are at his expense. Any dispute concerning an invoice must be notified by registered letter within 2 weeks of the date of the invoice.
10. Our relations with the Client are governed by the Belgian law. Only the Commercial Court of Brussels has jurisdiction
